The Forsaken Inn is a historical mystery novel set in the late 18th century, about a young newly-wed couple staying the night at the Inn, and leaving the next day. Several years later a secret room is discovered with the bride's body in it. But, many people saw the bride leave with her new husband. How is that possible? Anna Katharine Green (1846-1935) was one of the first writers of detective fiction in America and distinguished herself by writing well-plotted, legally accurate stories. Green has been called the mother of the detective novel. She stamped the mystery genre with the distinctive features that would influence writers from Agatha Christie and Conan Doyle to contemporary authors of suspenseful whodunits.
