

## The Humanzee Experiments (Ten Sci-Fi Thriller)

One scientist is on the wrong side of the law and that's why he's so important. Tempest Eugene Nesbit (Ten) returns in this new pulp novel from Amazon Bestselling author Terry Persun. In present day America, there are numerous technologies being researched and developed in secret. Only some of those are government projects. The International Security for Technological Innovations (ISTI) unit of the U.S. government hunts down the technologies, and the people behind them, that could have an impact on the safety of the American people and the world. Hired by the ISTI Chief of Staff, Jacob Sempter, Ten is asked to hunt down and stop scientists from producing human/chimpanzee hybrids for military purposes. When his friend Maria finds out that human trafficking is also involved, she sets out to help Ten find and end the horrible hybrid production and the horrific life the girls must be going through.
