

The Left-Hand Path: Mentor

Nathaniel Moore is a myth. Hes a witch too powerful to exist and too clever to be caught. Hes kept himself young for two hundred and fifty years with life-stealing dark magic and left a long trail of bodies in his wake, but no matter how many Chasers the Magistrate sent after him, not one of them was the challenge he wanted. Elton Willis, a model Chaser for the Magistrate, expected the ultimate villain when he cracked the cold case and tracked Moore to a cheap apartment in Yuma. What he got was an infuriatingly carefree man who smokes like a chimney, laughs at puns, and treats his young apprentice like a daughter. Its an uncomfortable discovery for someone determined to bring the man to the Magistrates gallows. Further complicating the issue, Elton has accidentally let loose one of Nathans old enemies--a lich with a vengeful attitude and a thirst for human souls. Now the Chaser is forced to choose between taking Nathan in, which would leave the murderous monster to roam free, or teaming up with the object of his obsession to take the lich down. The obvious answer, of course, is also the option thats the biggest pain in Eltons ass.
