

And Then You: A Novel

One night changes everything for both of them. At age twenty-five, Evianna Halle has a masters degree and a broken heart. In an effort to move forward, she accepts a job as a live-in nanny for Nicholas Wilder, a recent widower with a young daughter. But when she meets Nick, her young and kind-hearted employer, she realizes that maybe the universe brought them together at just the right time for a reason, even if its unconventional. Day by day, they learn to heal as one. Nick and Evi discover that perhaps friendship (and eventually love) can overcome heartbreak of the worst kind, even if that means abandoning the life they thought theyd live and embracing a new, unknown future. And Then You is an emotional contemporary romance about unexpected love and finding your way again when you thought everything good in your life was gone forever.
