

Non-Euclidean Geometry (Mathematical Association of America Textbooks)

This is a reissue of Professor Coxeter's classic text on non-Euclidean geometry. It begins with a historical introductory chapter, and then devotes three chapters to surveying real projective geometry, and three to elliptic geometry. After this the Euclidean and hyperbolic geometries are built up axiomatically as special cases of a more general descriptive geometry. This is essential reading for anybody with an interest in geometry.

Non-Euclidean Geometry (Mathematical Association of America Textbooks) by H. S. M. Coxeter (1998-07-30) [H. S. M. Coxeter] on . *FREE* **Taxicab Geometry: An Adventure in Non-Euclidean Geometry** Non-Euclidean Geometry in the Theory of Automorphic Functions. Jacques Hadamard. Publisher: American Mathematical Society History of Mathematics 17 Hadamard's book was written in the 1920s for publication in Russia, appearing **Non-Euclidean Geometry (Mathematical Association of America)** Jul 15, 2013 Non-Euclidean Geometry (Mathematical Association of America Textbooks) book download H. S. M. Coxeter Download Non-Euclidean **Lobachevskis New Geometries - Mathematical Association of America** Non-Euclidean Geometry (Mathematical Association of America Textbooks). H. S. M. Coxeter.
