In this heart-pounding thriller inspired by actual events, a woman believes her husband and children have been killed in a plane crash, until new evidence reveals that her husband deliberately vanished and that he knows a secret the government wants to keep silent. In 2003, eight billion dollars in Baghdad disappeared during the Iraq war. No one knew where it. Until now Kathy Kelly has the perfect life: two beautiful children and a loving husband. But one night her world is shattered. Her husband and their beloved children vanish during a violent thunderstorm on a charter flight. They are presumed dead, and the wreckage is never recovered. Kathy rebuilds her life and falls in love again. But then she discovers evidence that suggests her first family is alive, and that her husband deliberately disappeared with their children. When Kathy receives a clue about their whereabouts, she sets out to find them and the truth behind their disappearance. She soon learns that she isn't the only one looking for them. Others have been hunting for Kathy's husband for a long time, because of a powerful secret he knew that could open a Pandora's box of bloody revenge. It's a secret that will rip Kathy's life apart once again. A breathless, pulse-pounding thriller about the billions of dollars and priceless artifacts that vanished during the Iraq war and the lengths people will go to protect their secrets.
