

Venus in Red

Grayson Dynamics, led by the illustrious Mick Grayson, is the most powerful technology firm in the world. But underneath the fame and fortune exists a dark and dirty history. Corruption. Lies. Betrayal. Now, a woman with a grudge intends to wipe clean that filthy slate by killing the CEO who wronged her years ago and ending the global coup he's been planning for years. And how will she accomplish this? With her newly acquired neural enhancements, of course. Complete with the power to manipulate the minds of others. Originally published in last year's bestselling anthology, *The Telepath Chronicles*, this action-packed sci-fi short finally breaks out on its own!
