

Deceitful Moon (The Second Manny Williams Thriller) (Manny Williams Series Book 2)

****New Edition**** Detective Manny Williams and his partner, Sophie Lee, are called to the scene of a disturbing and gruesome murder at Lansing's local adult playhouse, the White Kitty. The circumstances surrounding the ex-cons murder rocket deeper into the bizarre as the forensic evidence reveals more questions than answers. As he begins his investigation, Manny is interrupted by a phone call that shakes his world. His nemesis, serial killer Dr. Fredrick Argyle, has killed again, and sent the evidence to prove it. Argyle's heinous actions force Manny and Sophie back to the Caribbean. All the while, the body count rises in his city. Two serial killers. Each threatening to change his life forever. One succeeds. Few have mastered the art of following their first blockbuster with an even more engaging, more thrilling, more unpredictable book...until Rick Murcer released Deceitful Moon. It takes your breath away on so many levels, from spine-tingling suspense and thrills, to emotional, poignant moments that leave an imprint so deep you can't wait to read his next book. Murcer hits a moon-shot home run with Deceitful Moon. Actually, he knocks it all the way out of the park! John W. Mefford, Best-selling suspense author of COMMITTED (This is the second Manny Williams Thriller)
