

White Gold (Dan Taylor)

A conspiracy that will end alternative energy research; an organisation killing to protect its interests - and a bomb that will change the face of terrorism...When Sarah Edgewaters ex-husband is murdered by a radical organisation hell-bent on protecting their assets, she turns to Dan Taylor - geologist, ex-soldier, and lost cause. Together, they must unravel the research notes that Sarahs ex-husband left behind to locate an explosive device that is circumnavigating the globe towards London - and time is running out. In a fast-paced ecological thriller that spans the globe, from London to Brisbane and back via the Arctic Circle, Dan and Sarah arent just chasing the truth - theyre chasing a bomb that, if detonated, will change the future of alternative energy research and the centre of Englands capital forever.Praise for White GoldThe style is reflective of the thrillers of Robert Ludlum... a heart-pumping page-turning thriller.
