

Blind Love (Broadview Literary Texts)

Blind Love is Wilkie Collins's final novel. Although he did not live to complete the work, he left detailed plans for the last third of this absorbingly plotted novel which were faithfully executed by his colleague, the popular author Walter Besant. The novel is set during the Irish Land War of the early 1880s and tells the story of Iris Henley, an independent young woman who marries the wild Lord Harry Norland, a member of an Irish secret society, and becomes unhappily drawn into a conspiracy plot. The Broadview edition of Blind Love includes a critical introduction and primary source materials that address the novel's focus on movements for Irish independence. Appendices include newspaper accounts of Ireland during the Land War and of the fraud case on which Collins based his story, articles reacting to Collins's sudden death, Punch cartoons depicting the English attitudes toward the Irish, and contemporary reviews.
