

Wolfhound Empire (The Wolfhound Century)

A spectre is haunting the empire--the specter of war. Huge stone creatures have fallen from the sky, their bodies littering the countryside. Blood-hungry golems are used to fight a never-ending war for political power. Secret police crush insurgency wherever its found. Investigator Vissarion Lom has been summoned to Mirrored to quell a new rebellion within the city limits. Hes been called because hes an outsider. Because he isnt enmeshed in the citys politics. And because of the piece of stone embedded in his forehead.
