

Wonders of the Invisible World

Pass through fairy tales into the magic of invisible worlds in these opulent stories by a beloved fantasy icon and author of the classic Riddlemaster trilogy. Patricia McKillip has inspired generations of dedicated readers with enchanting tales that are as romantic as they are unexpected. Her lush, mesmerizing narratives are as deliciously bittersweet as the finest chocolate and as intoxicating as the finest wine. The bewitching wonders offered here include princesses dancing with dead suitors, a knight in love with an official of exotic lineage, and fortunes fool stealing into the present instead of the future. You'll discover a ravishing undine and her mortal bridegroom who is more infatuated with politics than pleasure, a time-traveling angel forbidden to intervene in Cotton Mathers' religious ravings, a wizard seduced in his youth by the Faerie Queen returning with a treasure that is rightfully hers, and an overachieving teenage mage tricked into discovering her true name very close to home.
