

Wraith: A Novel

In *Wraith*, New York Times bestselling Reeves-Stevens team offer a no-holds-barred adrenaline rush perfect for fans of high-speed thrillers. In 1995, the CIA made a breakthrough that they hid from the world because it would change everything in modern science but some secrets can't stay hidden. A rogue force has learned how to make disembodied minds capable of lethal action. Ghosts have been weaponized, and now a Russian general has infiltrated the U.S. with a squad of berserkers' army that can't be killed because they're already dead. Only one person knew the general's plans, but she died in a car crash. The only person who can communicate with her is the cop who was at her side when she died and now he must race to stop a force that could end life as we know it.

Radiance (Wraith Kings Book 1) - Kindle edition by Grace Draven Once again, I came upon this book completely by chance, read the synopsis, and that was it!
